

## REACH YOUR TARGET AUDIENCE

Networking+ continues to offer an in-depth focus on voice & data networking for enterprise users. By delivering your message via print and digital issues, email and online, Networking+ offers a unique media combination. Using these platforms will put your products and services in front of more than 30,000 communications, network and IT professionals across the UK enterprise marketplace.

Each month, 14,000 copies of Networking+ are posted to desks, 16,000 digital issues are sent directly to inboxes and both are supported by Networking+ News Extra, our email newsletter, sent in between issues to over 16,000 readers. These platforms are backed by [www.networkingplus.co.uk](http://www.networkingplus.co.uk) available 24/7/365. These combine to create a community that purchases, selects and influences the specification of voice & data products and services for increasingly complex enterprise, campus, national and international networks – your existing and potential customers.
